Breast augmentation after Infection			6'200.00	3'100.00	covered	12'400.00	6'200.00	covered

What is BreastPerfect+ by TREMP Plastic Surgery AG?

BreastPerfect+ is a preventive measure to provide you with optimal and sensible protection against possible complications after your breast augmentation at TREMP Plastic Surgery AG. **BreastPerfect+** can only be taken out on the day of surgery at the clinic. The amount is payable for the first time on the day of the operation. **BreastPerfect+** cover begins immediately after payment has been made following the operation. The contract term is 1 year with the option of extension up to a maximum of 5 years. Cancellation during the year is excluded. If payment is not made on time, **BreastPerfect+** cover expires automatically and immediately. Treatment costs are only paid if the diagnosis and treatment are carried out by TREMP Plastic Surgery AG. Natural changes to the breast are excluded from the cover. The costs of removing capsular fibrosis or in the event of implant damage may be partially covered by health insurance. In this case, any deductible and excess will be borne by the patient. If the health insurance company does not cover the costs, the entire costs will be borne by the patient.

I am opting for safety after breast augmentation and am taking out the BreastPerfect+ product as of today after receiving the necessary information. NAME
